

Two missions. One heart.
Saving fresh food.
Lifting families.

Turning surplus food into
weekly support for families

A community-powered response to food waste and need

Food Is Being Wasted. Families Are Struggling.

Every day, large amounts of high-quality food are discarded by stores, caterers, and institutions — while families in our community quietly struggle to put food on the table.

Many families need support but are reluctant to ask. They deserve help that is efficient, respectful, and dignified.

Zeh L'Zeh exists to close this gap — respectfully and responsibly.

A Dignified, Efficient Solution

Zeh L'Zeh rescues high-quality surplus food from stores, mosdos, simchas, caterers, bakeries, and community partners — before it goes to waste. Instead of one-size-fits-all distributions, families use a real-time, choice-based online ordering system to select what they need, when they need it. This approach preserves privacy and dignity, while ensuring food is distributed respectfully efficiently and responsibly.
